VERITY PARK CELEBRATION INAUGURATES NEW WORKS

Honourable Duncan Marshall, Minister of Agriculture, Lays the Foundation Stone For Greenhouse and Nursery Industry—E. A. Cunningham, President Lethbridge Board of Trade, Turns First Sod For John McLennan's Iron Industry. Located in Red Deer Investment Co's Land, Adjoining Verity Park

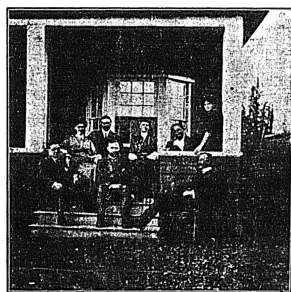

W. P. Bull, K.C., Brings Prominent New Citizens and Very Important Industries To Red Deer

Red Deer's townsfolk with their wives and daughters, were present in goodly numbers on Wednesday last at Verity Park to witness the laying, by Hon. Duncan Marshall, of the foundation stone of the first unit of Red Deer Nurseries. The ceremony took place on the Red Deer Investment Corporation's estate, adjoining Verity Park, immediately to the south.

Mr. W. P. Bull, K.C., of London, England, who is President of the British Canadian Realty Company of 38 Kingsway, London, was present as master of ceremonies for this function. This is his fourth visit to Red Deer within a twelve month, and his arrival here ten days ago was marked by the influx of many other visitors, several of whom were from England, while a number were present from Winnipeg, Lethbridge, Calgary, Edmonton and local points.

Mattocks, English townplanning expert, and his wife, who were on the Investment Estates adjoining the Alberta Central Railway main line, and only two or three hundred yards from the point where in 1910 Sir Wilfrid Laurier, the prime minister of Canada, drove the first spike for this important railway system, and immediately opposite where the railway crosses the river, the Mattocks, who have been neighbors and friends for almost half a century. As he stood overlooking Verity Park and the hundreds of people, belonging to the Bulls at Brampton, where, said Mr. Marshall, my father-in-law's mother's family and W. P. Bull's have been neighbors and friends for almost half a century. As he stood overlooking Verity Park and the hundreds of people, belonging to the Bulls at Brampton, where, said Mr. Marshall, my father-in-law's mother's family and W. P. Bull's have been neighbors and friends for almost half a century. As he stood overlooking Verity Park and the hundreds of people, belonging to the Bulls at Brampton, where, said Mr. Marshall, my father-in-law's mother's family and W. P. Bull's have been neighbors and friends for almost half a century.

Mr. Mawson-Mattocks was next introduced. He spoke of his several previous visits to Canada, of his careful study of conditions of soil and climate, all leading to his decision to locate at Verity Park, Red Deer. Here would be his new Canadian home where he will produce many acres of trees, shrubs and plants for use in his work of town planning, boulevard and park purposes, also for lawns, homes and estates, as well as for the public generally, also several acres under glass for flowers and early and out of season delicacies. Arrangements had been made to commence operations for the iron industry the same day, and the party then repaired to where Mr. McLennan's contractors were hauling materials for his first buildings. Here

Mr. and Mrs. W. L. Gibson, Mr. and Mrs. Kelson, Mr. and Mrs. Cunningham and W. P. Bull, K.C.

One of the prominent outsiders was ROBERT N. HELME, ESQ., of Netherlands, Lancaster, England, an English manufacturer who is a director of the Verity Park and Red Deer Investment Companies. One month Mr. Helme made a brief visit to our town; this time he spent ten days with us. He has been many times on this side of the Atlantic since his first visit when circling the globe in 1882, on a visit to Canada 21 years ago he married Miss Lillian Young, eldest daughter of the famous missionary, the late Rev. Egerton R. Young, who nearly half a century ago opened up the Canadian North-West Mission, and at Norway House and beyond, and whose letters, lectures and books have been such a factor in giving to the people outside of Canada a knowledge of our great Canadian West.

Mr. Helme is a keen and critical student, and in discussing Red Deer was able to draw comparisons not only with other Canadians, towns and cities, but of those of the other British Colonies of which he had personal knowledge, and a range of visions extending back for several decades. His impression of Red Deer after spending almost three months visiting other western Canadian towns, cities and rural districts, can best be gathered from a few facts: His trip covered roughly 15,000 miles, rail and water, and in addition about 2,000 miles by motor. During this time he has carefully studied and compiled comparative values and possibilities in different localities, and after conferring with Mr. Bull, and Mr. Mawson-Mattocks, the English landscape artist who is of the party, he recently railed 38 Kingsway, London, advising his company, to hold its unsold town plots for further advance in price. He also, in company with Messrs. Kelson and Cunningham joined Messrs. W. P. Bull and John McLennan on the Board of the Red Deer Machinery manufacturing company, and when saying farewell to W. L. Gibson, Manager of the Bank of Commerce here, whose guest he had been whilst in Red Deer, Mr. Helme said that on his next visit, not too far hence, he would bring his wife and daughters to enjoy Red Deer's charming sunshine and scenery, and to see a town so prosperous that 4,000 people could own and run seventy automobiles.

Mr. John McLennan who prior to his appointment as Canadian Government representative at Aberdeen and Liverpool, had been a builder and contractor at Edmonton, met Messrs. Helme and Bull here by appointment, to fix the location of the Red Deer Machinery Co., of which he is managing director. Acting under the advice of Mr. Mawson-

Red Deer below that of other parts not surrounded by a dairying community. The small population would also be consumers of part of his output, then the immense deposits of coal, clay and other raw materials in and tributary to Red Deer, also transportation and railway matters were very potent factors in attracting this iron industry to Red Deer.

Mrs. McLennan and her son accompany Mr. McLennan, and a home is being made ready for them in the eastern end of the town.

On the arrival at Red Deer of HON. DUNCAN MARSHALL'S train from the south, he was met by an important delegation of Red Deer citizens, headed by the Mayor, and all proceeded by motor driven to the south end of Verity Park, where the excavations had been completed, the building materials hauled and the workmen ready, at the request of Mr. Mawson-Mattocks, managing director of the Red Deer Nurseries. Mr. Bull took charge and asked Mr. Greene, President Red Deer Board of Trade, to introduce Mr. Marshall, which he did in a short speech, emphasizing the importance to the town of this new industry, and speaking of the special fitness of having the minister of agriculture for the Province of Alberta to inaugurate it. Mr. Greene then introduced the Honourable Duncan Marshall, who said, in part, that Red Deer was fortunate in attracting these nurseries and greenhouses, which should grow to enormous industries, as witness the Dale

President of Lethbridge Board of Trade, who turned the first sod for the foundation of the Red Deer Implement Manufacturing. The News readers will realize the importance to Red Deer of this part of the proceedings, when they know that Mr. Cunningham, who has lived many years in Western Canada, was the founder of the Lethbridge Brick and Terra Cotta Company, and that he had been prominently identified with the investment of Lethbridge of the Lethbridge Brick and Terra Cotta Company. He founded also the Western Canada Agency, jobbers in mine and mill supplies.

View on Nursery Grounds, Verity Park, during the Laying of the Corner Stone

each being the largest of its kind in Lethbridge, and all successful and flourishing enterprises. Mr. Cunningham told, after turning the sod, how he and his business associate, B. C. Kelson, had been interested in Red Deer by W. P. Bull. Two days later, talking to The News, he said he had been elected a Vice-President of the Red Deer Machinery Company, had rented a home in the eastern part of the town; that both Mrs. Cunningham and Mrs. Kelson had been charmed with Red Deer by their week's visit and he would move here to permanently reside in a fortnight, and Mr. Kelson's family before Xmas.

Mr. B. C. Kelson, a director in the company, spoke briefly but enthusiastically of Red Deer and her (Continued on Page 8)

HONOR PAID TO C. A. JULIAN-SHARMAN

Banquet to Fair Rosalind, the Champion Jersey Cow of the British Empire, at Red Deer

A UNIQUE EVENT.

Probably there has never been on the North American continent a more unique event than the banquet given by the Board of Trade to C. A. Julian-Sharman, the owner and breeder of the record Jersey of the British Empire, which took place here Wednesday last.

THE SPEAKERS.

The speakers on the local end were President Green, Secretary Davidson, Mr. E. Michener, M.P., Mayor Welliver, Mr. R. L. Gatz, and Mr. W. Robertson. For the guests, the speakers were Mr. C. A. Julian-Sharman; Hon. Duncan Marshall, Minister of Agriculture for Alberta; Mr. E. A. Cunningham, Chairman of the Lethbridge Board of Trade; C. B. Dennis, Calgary head of the C.P.R. Department of Natural Resources for Western Canada; Dr. Rutherford, in charge of the Animal Husbandry branch of that Department, and formerly head of the Department of Agriculture at Ottawa; Mr. C. W. Uven, C.P.R. district superintendent; Mr. Norman Ruskin, in charge of the Publication Branch of the Natural Resources Department; Mr. J. Albert Hand, editor Farmers' Advocate, Winnipeg; and Mr. F. S. Jacobs, editor Farm and Ranch Review, Calgary.

SOME OF THOSE PRESENT.

Among others present were W. J. Trevellick, Calgary, Provincial President I.F.A.; C. P. Marker, Provincial Dairy Commissioner; W. F. Stevens, Provincial Live Stock Commissioner; G. Hoadley, M.P.; Oskote, A. C., Fraser, manager Merchants Bank, Edmonton; W. P. Bull, K.C., London, England; R. N. Helme, Lancaster, England; F. H. Higgins, editor Alberta Homestead, Edmonton; Howard A. Kennedy, representative London Times, London, England; W. R. Park, Exeter, England; B. C. Nelson, Lethbridge; G. A. Billings, Bath, England; M. Drouse, Macleod; K. G. Dalgleish, Arden Valley; Stanley Barker, Kinross; H. A. Crocker, Winnipeg; Wm. Sim, Edwile; G. F. Brundrett, Calgary, secretary to Mr. Dennis; J. H. Laycock, Calgary; W. Richardson, Caledonia, Ont.; Thos. Laycock, Calgary; Henry Jamieson, Burnt Lake; C. L. Foote, Verreille; W. D. McCallum, Calgary; T. B. Stanford, Stavely; H. Franklin, Vancouver, B.C.; G. Adam, Victoria; Jos. E. Todd, Alex.; Jas. Jackson, Alex.; W. J. Haycraft, Rouleau; Ont.; J. Armstrong, Vancouver.

ROSALIND'S WORK.

The main theme of the evening

was, of course, the immeasurable value of dairying and mixed farming to the development of Western Canada as evidenced by the great achievement of Rosalind, the champion Jersey cow, in her consecutive three years' official test, full particulars of which are given in another column, but which the secretary has tabulated as follows:

Highest milk yield in one day, 52 lbs.
Highest milk yield in one month, 1411 lbs.
Highest milk yield in one year, 15,700 lbs.
Average test, 5.16 per cent.
Consecutive in one year, 1001.89 lbs.
Butter in three years, 2504.39 lbs.
Milk in three years, 37,847 lbs.
Actual returns for cream and skim milk in three years, \$ 907.50.

Value of three heifer calves not known, but have refused \$2000.00.
MR. JULIAN-SHARMAN'S REPLY

Mr. C. A. Julian-Sharman, breeder and owner, and his herdsmen, Mr. C. Jones, were repeatedly congratulated on the skill and care which had brought about such wonderful results in yield. In reply to the toast of his health, Mr. Julian-Sharman spoke as follows:—

"Mr. Chairman and Gentlemen,—
"Red Deer has shown herself on different occasions to be just a little different to other towns in Alberta and in the present case has proved a particularly gratifying, as it is a cow that is really responsible for our being here. Banquets I know are not a particularly thrilling form of amusement, and that so many people from outside points have taken the time and trouble to come here for this occasion is certainly an honor to me as representing Rosalind of Old Basing, and an honor to me as possibly representing in some slight form the dairy stock breeders of Red Deer.
"Last Sunday night (from overeating and lack of sufficient work, I presume), I could not sleep for a really wonderful speech. Now, however, my head is an aching void, the pit of my stomach feels the exact opposite, but this feeling and this want of feeling are neutralized to a great extent by the still feeling Mr. Michener has put down my back.
"In talking time, I have heard Mr. Davidson the other day, he said, 'When Mr. Michener is through with Rosalind there will be nothing left for you to say.' If publicity commissions always stayed as near to the truth as that remark, I really believe the remarks of publicity agents would not be subject to so large a discount. I would like the gentlemen here to clearly understand that whilst I am the fortunate owner of Rosalind, it is the cow that has made the result possible, and that the possibility would not have resulted in anything at all out of the ordinary if it had not been for Mr. Jack Jones (a Welshman), who has

had entire charge of her during the three years for which she has been under test. Jack has hardly missed a making in the three year, except in case of illness, when I have endeavored to take his place, with the result that Rosalind's normal milk yield decreased by about 50 per cent. on these occasions.

"The boys take it in turn to have Sunday evenings off—we live about 3 miles from town—and on Jack's evening off he would always drive out from town about 6 o'clock, milk her, and then go back. A hired man that will do that sort of thing, I believe you will agree with me, is entitled to as much credit as Rosalind, although she did the actual producing of the goods.

"I do not propose to try and continue you in any way of the superiority of the Jersey. Other breeds are just as good; success with any breed is a personal factor, and that personal factor is the man behind the cow.

"Some four or five years ago, before Mr. Michener went into dairy cattle, he talked to me quite a lot about getting some Jerseys. Unfortunately, in an evil moment he was persuaded to get some Holsteins, but if I am any judge of which way the wind blows, his having sold to day every herd of Holsteins he possessed is a sure sign that he is now going to stand up with his first judgment of cattle, and I am expecting a visit from him at Old Basing Farm to buy, at \$800 per head, about half a dozen heifers and a bull calf to lay the foundation of a really first-class herd.

"I know that the Calgary people and the Calgary press are great optimists, and I notice in a Calgary paper of this morning that Rosalind is the champion butter cow of the world. This is not correct. She has been beaten by one other cow in the world for a three year test and that cow is a Jersey; but Jack Jones and Rosalind have been talking things over and Rosalind says she is going to have you all come back and elaborate in the future the results of a special effort she will make, which she hopes to be No. 1 the world over, so we will try and think that the Calgary paper is only taking time by the forelock.

"Now that Mr. Marshall is here, and that I have the floor, I am going to let him get away without giving him an idea of how he can I honestly believe, place Alberta in the foreground from the dairy standpoint as she has never been before. People often ask me why I do not exhibit at the fairs. And my reply and belief is that the standard by which dairy cattle are judged is wrong. Alberta does not need cattle that can only make their owners enough money in the show ring to pay the exhibitors their travelling expenses, with a piece of red ribbon thrown in. Alberta wants a type of cattle that looks like production and can produce the goods in the way of milk and cream, and I think that the regular fair

exhibitors will agree with me that the cow that stands highest in the show ring is nearly always, I might say practically always, of very little use at the stall.

"May I take Rosalind as an example. She was shown at the Dominion fair in Calgary and played seventh. She would have been lower had the class had more entries.

"On another occasion, about four years ago, Rosalind was judged in a class of nine 3 Ayrshires, 3 Holsteins, and 3 Jerseys, and the judge said he would place them as milk cows. Rosalind was placed ninth, and after the judge was through, the late Minister of Agriculture, Mr. Finlay, asked me if I was satisfied with the placing, and I said, 'Yes, but you have got them numbered from the wrong end,' and I owned and still own the cattle that were practically at each end of the line. I have proved for several years since that the cow that was placed ninth would produce one dollar whilst the cow that was placed first was busy carrying ten cents.

"Mr. Marshall, on behalf of the real interests of dairying in Alberta, I bespeak your consideration for what an animal can do, and less for what she looks like. Curly horns and long tail may look very nice but they do not get much use with a stone hill.

"One other little matter that may interest you, and I am through. I believe I have the Old Country in my mind for living animals, and I have a boy six years old that is, if possible, more fond of cattle than his father. He thinks Rosalind is IT in capital letters. When the Duke of Connaught was in our little town, I happened to mention the fact to the youngsters, and he at once said, 'When is the Duke of Connaught coming out to see Rosalind?' I answered, 'Oh, he is not coming.'

"The boy was silent for a few minutes and then said, 'Well, why on earth is the Duke of Connaught coming to Red Deer then?'
"Gentlemen, I thank you once more for your kindness in honoring me this evening. It is not alone a great honor to me, it is an honor to mixed farming, to the dairy breeders of this district, to Jack Jones the herdsman and to good old Rosalind, the cow with the romantic name and a national record. I think with Shakespeare—
"From the East to Western Ind,
No jewel is like Rosalind."

MR. MICHENER.

Mr. E. Michener, M.P., did honor to the chief guest to the dairy cattle industry, to the district, and to himself in his manner and matter, a posing the toast, Mr. Julian-Sharman, without expert training which many had devoted into one of their best farmers; for two years in succession he had won the prize for the best kept farm, and had built up a Jersey herd of national reputation. His success and the performance of his wonderful cow was an inspiration to every agriculturist in the country to aim high. The dairying industry was especially fitted to Central

and Northern Alberta, and the matter of choice of breed was a matter of a man's temperament; they could hardly conceive of Mr. Julian-Sharman being happy with any other breed than the Jerseys. It was "the man behind the cow" who counted, not the breed, but aim for the top notchers. Taking this district as 50 miles square, and there were 10,000 quarter sections. If each quarter had 20 cows earning \$50 each a year, there would be 10 millions of annual revenue; at 10 cows a quarter section, Alberta would have a revenue of \$500 millions. The dairying industry was the basis of scientific production, and farmers were beginning to realize the importance of saving and selection in building up a herd.

THE MAYOR.

Mayor Welliver gave a rattling review of some of Red Deer's many advantages in her strategic location, her beautiful surroundings, in her commission form of government, in her growth and development, as evidenced only this day by the placing of two new industries by Mr. W. P. Bull and his associates. This was especially mixed farming district, and the farmers of such a district had money all the year round.

HON. MR. MARSHALL.

Hon. Duncan Marshall congratulated the Board of Trade of Red Deer on signaling the wonderful achievement of Mr. Julian-Sharman; and Rosalind; they could not have done more appropriate or better thing, dairymen, industry and intelligentsia; a high order were required to bring about such results as Mr. Julian-Sharman had reached. It was all very well to preach the Gospel of mixed farming, but dairying especially entailed a lot of hard and continuous work, and dairy farms needed all the stimulus they could get, and this banquet was a great aid in that direction. Mr. Marshall pointed out some of the difficulties in judging dairy cattle for conformation in show rings they had tried to overcome these, as far as possible, in getting experienced and trained judges for the show rings. But he had not been neglectful of the test of actual performance, as far as possible, in getting breeders the importance of a Winter fair at which such dairy tests could be made. He was glad to inform them, too, that the number of cows under Mr. Mark's supervision which were entered for record of performance tests such as Rosalind had been undergoing for three years had increased 100 per cent. the last year.

Red Deer was an ideal location for trying various remedies when I heard of Zamb-Buk, and thought as a last resource I would give this claim a trial. After a very short time Zamb-Buk effected a complete cure. Zamb-Buk is also a sure cure for skin injuries and diseases, eczema, hemorrhoids, various cuts, burns, bruises, chaps, cold sores, etc. 50¢ a box from all druggists and stores, permanent agriculture must have its basis in live stock. The town and county, one of the best, for the relief of a sufferer, never had a source of such

advertising value, as they had in Rosalind's performance and the man behind her, and on behalf of the Province and on behalf of the Department of Agriculture, he congratulated Mr. Julian-Sharman most heartily on what had been achieved.

MR. CUNNINGHAM.

Mr. E. A. Cunningham spoke of the efforts the Lethbridge Board of Trade were making to encourage dairying in Southern Alberta. They had figured out 75,000 boys in their district, and were after a passing point, but they fell down somewhat on dairy cows. The great increase in the growing of alfalfa in their district gave much promise, however, of dairy development. He had been greatly interested and interested in the record of Red Deer's many advantages, and believed it people ought to be proud of their district.

J. S. DENNIS.

Some of the speeches delivered will go down in history among the dairy. (Continued on page 6)

SUFFERERS FROM PILES

Zam-Buk Has Cured These.

Friction on the hemorrhoid veins that are swollen, inflamed and gorged with blood, is what causes the terrible pain and stinging and smarting of piles. Zamb-Buk applied at night will be found to give ease before morning. Thousands of persons have proved this. Why not try Zamb-Buk? I suffered greatly from piles. I started to use Zamb-Buk and found it gave me relief, so I continued it, and after using three or four boxes, I am pleased to say it has effected a complete cure.

Mr. G. A. Buresse, 183-185 St. Joseph Street, St. Roch, Quebec, P.Q., writes: "I can highly recommend Zamb-Buk to everyone who suffers from piles."
Macfie-Stanford, of Weston, King's Co., N.S., says: "I suffered long from itching piles, but Zamb-Buk has now cured me."
Mr. William Kent, of Upper Nine Mile, River, Hants Co., N.S., says: "I suffered terribly from piles, the pain at times being almost unbearable. I tried various ointments, but everything I tried failed to do me the slightest good. I was tired of trying various remedies when I heard of Zamb-Buk, and thought as a last resource I would give this claim a trial. After a very short time Zamb-Buk effected a complete cure. Zamb-Buk is also a sure cure for skin injuries and diseases, eczema, hemorrhoids, various cuts, burns, bruises, chaps, cold sores, etc. 50¢ a box from all druggists and stores, permanent agriculture must have its basis in live stock. The town and county, one of the best, for the relief of a sufferer, never had a source of such

WEDNESDAY, OCTOBER 23rd, 1912

SIR WILFRID QUOTES LORD MILNER

Among the numerous errors of judgment which marked the Laurier tour through Ontario, the Peterborough incident shines as a particularly bright example. The Liberal leader in his speech at Peterborough attempted to call Lord Milner, of all men, as a witness in behalf of the Laurier party. The attempt was ill-considered, Lord Milner being then in Canada. It so happens that Lord Milner stands in a group of British statesmen who are pre-eminent as empire builders, in whose scheme of things the Laurier party would not have a place. Yet Sir Wilfrid boldly proclaimed on the platform at Peterborough that Lord Milner approved of a Canadian navy as the best way by which Canada could help the mother country. Lord Milner was made aware of the use to which his name had been put at Peterborough. His reply was that in his speech in Toronto four years ago—to which, he thought, Sir Wilfrid had alluded—he had advocated a Canadian navy, "but especially emphasized that it should be for Imperial, not merely for Canadian purposes." Everybody knows that the Laurier party has no place in any such purpose as this outlined by Lord Milner. As to what he had since said on landing at Halifax, Lord Milner added, "The British people will welcome any Canada that may decide to do and approve the spirit in which she has taken the matter up. Personally I favor Canada and the other self-governing dominions creating their own navies, though this would be of little use, when established, they did not act as one. Meanwhile, as it will cost time to build up a Canadian navy, a direct contribution to the British navy may be desirable, preferably of ships, not money. But any share the dominions take in Imperial defence should involve a share in the control of policy. They are not tributary states but partners in the Empire."

Is Sir Wilfrid Laurier still disposed to quote Lord Milner as his witness?

Hon. Martin Barrill, minister of Agriculture, has under consideration a plan by which the important industry of poultry raising will be strengthened and developed, and has recently appointed an officer to take charge of this work in Prince Edward Island.

The Hon. J. D. Hazen, Minister of Marine and Fisheries, a few days ago opened a new grain elevator in the town of Sorel, then inspected government works at Sorel. He followed this up with the selection of a site for a Quebec dry dock and then inaugurated the North Ship Channel in the St. Lawrence. It is wonderful how much can be done for the people when a minister is a live wire.

Sir Wilfrid Laurier is quoted as having told the General Reform Association in Toronto that the people of Canada, in turning his government out of office, had been influenced by "prejudice, passion, ignorance and self-interest." In the mouth of the Liberal leader, the words constituted a general term of abuse, reflecting the bitter personal feeling of a beaten man whose victory after long years of careful culture has been deeply wounded. But what about the "self-interest" accusation?

Does it mean that the rejection of reciprocity benefits the Canadian people as an economic proposition? Can it mean that the interest of the beaten ministry and the interest of the Canadian people were not identical?

The Government of Canada has paid out of current revenue a loan of \$6,142,000 which matured on October 1st. This is a somewhat rare experience for Canadians and one which appeals to them. Under another regime a growing revenue was regarded as an excuse to indulge in greater expenditure and a further extension of Canadian credit with a view to borrowing. The present Government is using growing revenue to pay off debts and reduce the annual interest chargeable on the country. Increased confidence at home and abroad will be the result.

BUILDING WEST OF RED DEER PROGRESSES.

The contractors on building of the Alberta Central branch of the Canadian Pacific west of here, through Burnt Lake, are making good headway. Only a little in the centre remains to be finished, which they report will only take one month with good weather. With the completion of the work the grade will be finished with all bridges erected and ready for the steel to be laid west as the Rocky Mountain House.

The road bed is in good shape, having been partly finished last year, but it is not expected any steel will be laid this fall, but the company state that this line will be rushed in the spring. It is also understood the branch from Aeneas will be finished into Red Deer early next year.

PRICES STILL GOING DOWNWARD.

The Department of Labour's index number of wholesale prices continued to decline during September, standing at 132.5 as compared with 133.1 in August and 128 in September of last year. These numbers show a comparison of prices prevailing at the present time with the average prices during the ten years, 1890-1900, some 255 articles being considered in the estimate. The downward movement during September was due chiefly to declines in the price of fresh vegetables, especially potatoes, which were 10 per cent lower. Increases in several commodities, notably dairy products, fish, iron, hides, boots and shoes, anthracite coal and miscellaneous building materials. In regard to retail prices, the chief feature of the month was a rise in price of anthracite coal in many cities of Eastern Canada.

Eckville

The box social, concert and dance held last Friday was the best ever. The local talent surprised many. The school children opened the concert with "O Canada." Miss Hampton is to be congratulated for the way the children did their part. Mrs. Kidd sang in her usual charming "The Eveville Quartette." Messrs. Olson, Litt, Eklund and Palmer contributed two items, and Mr. Laid gave a recitation. Mr. Jack Robinson made a most efficient chairman and later auctioneer. Over \$50 was raised by the sale of boxes, the proceeds going toward the cost of erecting a public hall in Eckville. The entertainment, should be said, that her efforts were so successful. The Co-operative store building is well under way, and will be ready to receive goods soon.

Mr. Lawrence, of Eberts, has bought two lots on Main St. and will erect extensive premises this fall.

Mr. Watson, of Evans Hotel, was in town last week.

Mr. Olson has a telephone installed in his hotel. Phone Eckville if you want the hub.

Mr. Isaac Heami is loading a car of coal for the west. C.N.R. surveyors were in town last week. They spent some time running lines from the north into town. Presumably did you say Very lively. We expect so. We're only some thousands behind Calgary now.

Reciprocity Argument Gets Hard Knock

Market For Canada's Grain

United Kingdom Wants Our Wheat and is Ready to Take Our Flour. United States a Keen Competitor.

Official figures of the British grain and flour exports for the past year, which have been received by the Trade and Commerce Department form the strongest possible evidence to the advocates of reciprocity. They contend that the farmers need the American market for the western wheat on two grounds. One is that the British market is too small, and is insufficient, and second that the United States is no longer an exporting country in wheat and wheat products but an importing country. These figures show on the contrary that at present only one-fifth of Great Britain's wheat is supplied by Canada and second that the United States is one of the Dominion's most important competitors for the wheat trade of Britain and Canada. Only serious rival in the wheat and flour market. The conclusion is that there is plenty of room for the expansion of Canadian wheat trade in the United Kingdom and it is ridiculous for us to expect the United States to form a market for our grain, when it is our greatest rival in the old country.

THIS SHOWS IT.
In 1910-11 the United States sent 9,770,000 hundred weight or 17,000,000 bushels to the United Kingdom. Canada sent 135,350 hundred weight or 25,000,000 bushels. In 1911-12 the United States increased their sales of wheat in Great Britain to 32,000,000 hundred weight or 64,000,000 bushels. In flour sales the United States leads Canada, although the Dominion promises to be a few years to be in the lead. In 1911-12 United States exports to Great Britain were 5,342,845 cwt., and Canada's 2,570,222 cwt., and in 1911-12 the United States flour exports dropped to 4,418,498 cwt., and Canada's increased to 3,944,893 cwt. There is almost an unlimited market for Canadian oats in Great Britain, Russia and Argentina dominate the market, with Canada a hard third. Canada's export of oats in 1911-12 amounted to about three million bushels.

WANT CANADA'S WHEAT.

W. J. Egan, Canadian trade commissioner at Manchester, commenting on these figures in a report to the Trade and Commerce Department, says: "The milling trade of Lancashire, whose facilities are growing constantly both in Liverpool and Manchester, very much in favour of Canadian wheat, and state that the Lancashire market, which is the most direct and best situated for distribution, is presently in a position that may be shipped here, claiming that there is no limit to possible expansion."

The trade continues their praise of our wheat, system of grading, and export conditions from Canadian ports, all expressing the wish that in the near future all our grain would be shipped from our own ports and under Canadian regulations.

WOMEN FARMERS

Dairy farming as a profession for women and an aid to the solution of the problem of agricultural depression, was advocated by Mrs. Gardiner of Cheltenham, England, at the annual meeting of the Women's Agricultural and Horticultural International Union. Mrs. Gardiner maintained that dairy farming offered a good opening for women, that it itself was sufficient excuse for bringing the matter forward, but it might also help to solve two problems, the problem of agricultural depression which was trying all over Great Britain, and the problem of employment for women. There was any amount of scope for women in dairy farming, and she said that in the case of women, unless they were going to produce the best sort of milk on the most up-to-date lines, they might as well not start dairy farming at all. Capital was essential, but if the working woman was inclined to work, and was backed up by some body with capital, she had no doubt that commercially dairy farming for women could be made to succeed.

Intensive Cultivation.
The scarcity of cheap labor, which has long been a problem in a very large of business in British Columbia, is bringing about a remarkable change in the agricultural sections of the province, but particularly in the lower Fraser Valley. The large farms are giving place to the small, and there is a tendency to look up to a more intensive cultivation as the only profitable method.

FACTORY AREA MOVES WESTWARD

Remarkable Expansion at Fort William Shows the Direction Industrial Life is Taking

The following is a list of the new industries to be established in Fort William this year:
The Canada Car and Foundry Co. will build a million dollar plant for the manufacture of coaches and freight cars in Fort William, guaranteeing to give employment to 1,000 men on an average for the first five years, with a capacity of producing 7,000 cars per year.
A. M. Nanton and associates will erect a plant for the manufacture of starch and glucose costing nearly a million dollars, and giving employment to 200 people.
The National Tube Co. have already begun operations for the construction of a plant to cost \$400,000, and employing 150 men.

A McKellar & Co. are under contract with the city to erect a plant for the manufacture of bedding, to cost \$150,000 and employ 50 men.
The Great West Wire Fence Co. are under contract with the city of Fort William to erect a plant for the manufacture of wire to cost not less than \$100,000 and employ 50 men.
The total number of men to be employed by the industries located in Fort William this year total an amount of 1,460, which means an increase in the population equal to nearly 10,000 people.

This, with natural increase, together with the increase of population from the enormous amount of transshipping connected with Canada's national commerce and trade will conservatively mean a doubling of the present population within two years.
This is an illustration of the movement of factories westward. In the next generation Western Canada will have followed the example of the Western States where industrial life has developed, with remarkable strides, and conditions similar to those which obtain in the Western Canadian provinces.

PROFIT IN DAIRYING

A Saskatchewan Farmer Who Makes Money Out of Cows.

Mr. B. H. Thompson who farms twelve hundred acres at Bohrium, Sask., has given a practical illustration in dairying, which for three years has been an important department on his farm. He has specialized in the Holstein breed, and has had the distinction of winning the Grand Challenge Prize for Saskatchewan with one of his animals this year. This achievement will help him to get a ready sale for his finest stock, and the proceeds to bring in over \$2,000 this year. The actual supplying of milk and cream for the market returns Mr. Thompson another \$2,000. In fact this year Mr. Thompson has a herd of eleven dairy cows which will give for him through their yields of milk and cream \$200 per head. This means that he will receive an income of \$1,200, which will simply be an extra, because Mr. Thompson is essentially a grower of grain. His twelve hundred acres is divided as follows: 800 acres producing grain and hay; 200 acres for dairy pasture, and 200 acres as follows. This teaches that even in the best wheat districts dairying can be made to pay very profitably.

A VICTORY FOR MIXED FARMING

Alberta farmers who have not made the popular western mistake of pure raising, to the exclusion of other valuable farm enterprises, are rejoicing this year. Live stock in the Sunny Province came through last winter in excellent shape, and the animals went on the new pastures in the pink of condition. The average loss in bringing the sheep through the winter in Alberta is usually about 5 per cent. Last winter it was only about 1 per cent, and the difference meant quite a saving in dollars and cents, taking the combined flocks of the Province at 65,000. Those farmers who had frozen wheat, for which the market only offered 40c, bought up bags to turn the low-priced feed into high-priced pork. They are learning that live stock is the greatest asset of a prairie farm.

MUSICAL TUITION.
Practical Teacher of the Banjo, Mandolin and guitar. Thirty years' experience. Progress guaranteed. Repairs a specialty. Apply P.O. Box 94, or W. H. Hadley, 2nd Ave. East. Sept. 18.

To Contractors.
Bulk tenders are invited for the erection and completion of various alterations and additions to the Michener Block, Red Deer, Alberta, for E. Michener, Esq., M.P.P., the amount of work to be done is that it was safe to come and develop. As time went on, the success of those who came here, the united efforts of the Government and the C.P.R. and of other agencies had resulted in our getting an increasing number of settlers. Mr. Dennis paid a glowing tribute to the British and Canadian settlement of the west, Red Deer having the honor of having the largest proportion of British settlers among Eastern Canadian groups. The speaker expressed the wish that other portions of the province had been favored with similar excellent quality and proportion of settlement.

The speaker stated that live stock was on the decrease in the west. In this province five years ago there were said to be 500,000 head of cattle, and today only 600,000 head. The same was true of Saskatchewan and Alberta. Mr. Dennis deplored the fact of farming at present going on in many parts of Western Canada, and referred to it as a "method of soil robbery" which would eventually land us where some of the worst out States of the Union had been landed by precisely the same method. Upon the same point Professor Rutherford was equally plain speaking, in stating that the loss of what would happen to Western Canada, the fact that the grain belt of the North American continent, which at first was in the Valley of the St. Lawrence, has slowly but surely shifted from State to State westward, leaving in its wake desolation and exhaustion of the soil, until the only product of the same product was the northwestern plains of Canada, soon likely to be robbed and forsaken unless other methods were brought into operation.

Mr. Dennis referred to the recently adopted policy of the C.P.R. in establishing twenty-five experimental farms in addition to the five already in operation, which new departure has distinctly in view the encouragement of mixed farming and cattle raising in all parts of the province of Alberta. The responsibility of development of the country along right lines was upon the present settlers of the country, and was a serious and heavy responsibility indeed. The speaker also sounded a note of warning against the "method of soil robbery" which was being practiced in the development of our towns and cities on the borders of the British Empire. Some years ago statistics showed that there were 318 millions of pounds of British capital invested in Canada, and at the same time 673 millions of pounds invested in the United States of America. Since then, however, the relative position of these huge amounts had been entirely reversed. There is not a village town or city in the west that has been developed without the aid of British capital, and this money should be expended honestly.

C. A. JULIAN-SHARMAN, BARNES & GIBBS, Associated Architects, Red Deer and Edmonton.

To Contractors.
Bulk tenders for plumbing, heating and ventilating are invited for a School Building at Coronation, Alberta.

Plans and specifications may be seen at the offices of C. A. Julian-Sharman, Architects, Red Deer, Barnes & Gibbs, Architects, Edmonton; Office of the School Board, Coronation; and the Builders' Exchange, Calgary.

Basement to be excavated this fall. Structure start March 1st, 1913. Building to be completed August 1st, 1913.

All tenders are to reach the undersigned not later than November 1st. The lowest of any tender not necessarily accepted.

All tenders must be accompanied by a marked cheque for 5 per cent of the tender, which will be forfeited in the event of the selected contractor failing to sign the contract when called upon.

W. GUTHRIE, Secretary-Treasurer, Coronation School Board, Coronation, Alberta.

NOTICE.
Department of Indian Affairs. TENDERS FOR FLOUR.

SEALED TENDERS endorsed "Tenders for Flour" and addressed to the undersigned will be received up to noon of Wednesday, the 30th of October, 1912, for delivery on or before the 15th November next, of the undermentioned quantities of flour, or any portion thereof, at the point named therein.

Flour to be equal to the standard sample, which has been ground at this season's wheat crop, and which may be viewed in the Department of Indian Affairs, at Ottawa, the Indian Office at Winnipeg, the Indian Agents at Battleford and at the Dominion Land Offices at Calgary, Edmonton, Prince Albert, Battleford, Lethbridge and Macleod. The flour should be first grade put up in sacks containing 100 lbs. net and double sacked. The inner sack to be of grey cotton, three yards to the pound, free from discoloring, and to weigh six ounces when made up; the outer sack to be of blue, sewn with strong twine and to weigh fourteen ounces; sack known to trade as a "two pound bag." The outer sack to be legibly branded with the name of the manufacturer, and net weight of flour within.

Each tender must be accompanied by an accepted cheque in favour of the "Secretary of the Department of Indian Affairs" on a Canadian Bank, for at least five per cent of the amount of the tender, which will be forfeited if the party tendering declines to enter into a contract based on such tender when called upon to do so, or if he fails to complete the work contracted for.

The undersigned insertion of this advertisement will not be paid for. J. D. McLEAN, Asst. Deputy and Secretary, Department of Indian Affairs, Ottawa, Oct. 9, 1912.

As it has been brought to the attention of the undersigned that people have been dumping refuse on the hill north of town, this is to notify any person dumping any kind of refuse on the property known as Woodlands will be prosecuted to the utmost limit of the law. (Signed) MRS. A. R. STEWART, Fred L. Ray, Proprietors. Red Deer, Oct. 14th, 3w1.

NOTICE.
Local Improvement District, 19-T-4. Notice is hereby given that all persons having claims against Local Improvement District 19-T-4, are required to send particulars of such claims to W. F. Code, Red Deer, Alberta, the Secretary of said district, before the Seventh day of November, 1912, and that any person who fails to do so shall be deemed to have waived his right to recover the same from said district, that may be liable for the liabilities thereof.

Dated at Red Deer this 26th day of September, 1912.
W. F. Code,
Secretary-Treasurer, L.I.D. 19-T-4, Oct. 2, 4w.

Honor Paid To C. A. Julian-Sharman

(Continued from page 3)

men of this district as contributors of the greatest value in connection with the problems of stock raising and dairying. Perhaps the speeches of J. S. Dennis and Professor Rutherford especially will be so remembered. Rarely have words of greater weight, more charged with soundness and sincerity, been uttered than by Western Canada's greatest publicity genius, Mr. Dennis.

He spoke of the long wait which made the heart sick for the people of this western country twenty years ago, when one or two trains would have carried all the settlers who came to this country in the course of a year. Just the same resources were then available, but it was not possible then to persuade the people that it was safe to come and develop.

As time went on, the success of those who came here, the united efforts of the Government and the C.P.R. and of other agencies had resulted in our getting an increasing number of settlers. Mr. Dennis paid a glowing tribute to the British and Canadian settlement of the west, Red Deer having the honor of having the largest proportion of British settlers among Eastern Canadian groups.

The speaker expressed the wish that other portions of the province had been favored with similar excellent quality and proportion of settlement.

The speaker stated that live stock was on the decrease in the west. In this province five years ago there were said to be 500,000 head of cattle, and today only 600,000 head. The same was true of Saskatchewan and Alberta.

Mr. Dennis deplored the fact of farming at present going on in many parts of Western Canada, and referred to it as a "method of soil robbery" which would eventually land us where some of the worst out States of the Union had been landed by precisely the same method.

Upon the same point Professor Rutherford was equally plain speaking, in stating that the loss of what would happen to Western Canada, the fact that the grain belt of the North American continent, which at first was in the Valley of the St. Lawrence, has slowly but surely shifted from State to State westward, leaving in its wake desolation and exhaustion of the soil, until the only product of the same product was the northwestern plains of Canada, soon likely to be robbed and forsaken unless other methods were brought into operation.

Mr. Dennis referred to the recently adopted policy of the C.P.R. in establishing twenty-five experimental farms in addition to the five already in operation, which new departure has distinctly in view the encouragement of mixed farming and cattle raising in all parts of the province of Alberta.

The responsibility of development of the country along right lines was upon the present settlers of the country, and was a serious and heavy responsibility indeed. The speaker also sounded a note of warning against the "method of soil robbery" which was being practiced in the development of our towns and cities on the borders of the British Empire.

Some years ago statistics showed that there were 318 millions of pounds of British capital invested in Canada, and at the same time 673 millions of pounds invested in the United States of America. Since then, however, the relative position of these huge amounts had been entirely reversed. There is not a village town or city in the west that has been developed without the aid of British capital, and this money should be expended honestly.

DR. RUTHERFORD.
The speech of Dr. Rutherford was replete with telling points and worthy of extended report. He remarked upon the fact that the banquet had consisted solely of duck, partridge and prairie chicken, and was delighted at the accident or the wisdom that had prevented beef being served in honor of a cow, for had it been otherwise it would have been a travesty of cannibalism. He stated that one of the worst curses that could befall this western country was a great big crop of wheat safely gathered. Mixed farming had once obtained to a very great extent in Manitoba as the result of the efforts of the Government and of the agricultural colleges, and there was prosperity. But there came a year when there was a marvellous crop of wheat and every farmer went crazy with visions of forty bushels to the acre and a dollar a bushel. Farmers sold their cattle, or gave them away, and went in for wheat. The irreparable damage of the farming industry and to business generally.

The protest of the speaker was eloquent and striking indeed when he raised his voice against the prevailing custom of slaughtering females, which were the basis of production and the hope of the future in the stock industry. He especially dwelt upon the time of slaughtering heifer calves, ewe lambs and young hogs. This slaughter of the innocents ought to be stopped at once.

Limits of space forbid further detail. The day was one to write upon the calendar of Red Deer. It brought of gold, and to be spoken of to one's children and their posterity. Mr. Sharman, in a characteristically modest speech, gave generous credit to Jack Jones, the hired man, who has not missed a milking in three years of the champion Rosa, and, except when Jack was having his day off and visiting his friends in Red Deer, he would drive

out three and a half miles to milk his faithful friend, and then back to his friends for the rest of the evening. This devoted Welshman is as much worthy of a banquet in his honor as the owner himself, and Mr. Sharman generously recognized this fact, a circumstance which made every man at the banquet feel that the guests were really being matched by the magnanimity and manliness of her owner.

Auction Sales

By Col. G. N. Welsh

AUCTION SALE. NEAR EVARTS.

Having received instructions from Mr. A. J. Frid, I will sell by public auction at his place, N.W. Qr. 19-35-3, 81 miles west and 11 miles north of Everts, on

THE TOWN COUNCIL

The adjourned regular meeting of the Town Council was held Thursday evening last. His Worship Mayor H. B. Welliver in the chair, and Councillors Malcolm, Botterill, Myers, Carscadden and Galbraith in attendance.

CORRESPONDENCE.

The report of the Medical Health Officer was read. He reported on two mild typhoid cases in town. He also reported on having sent a sample of our water to Provincial Laboratory and it was reported pure.

The Canadian-American Land Co. sent title of lots in Englewood. A. T. Ross, Deputy Minister of Education, asked for information from the town re. schools.

Record Pub. Co. re. building operations. Filed.

The Cunningham Land Co. notified the Council they had a large gravel pit at Blackfalds and would be pleased to contract for any quantity of gravel the Town might desire this or next year. Filed.

The Council was notified that Mayor or Welliver was appointed Vice-President for Alberta of the Union of Canadian Municipalities.

Stephen Wilson and others petitioned that no boulevard be built at South end of Holt Avenue.

As the Council had no intention of boulevarding there, the petition was unnecessary.

The Cunningham Land Co. desired to rent the Board of Trade building it was to be vacant. He referred to Commissioners.

Dr. Henry George reported having attended a prisoner for a four day disease, and he was sent to Calgary as a vagrant and also for treatment.

Commissioner Stephenson and Chief Clerk were appointed to go to Calgary on the 24th of Oct. as delegates to attend the Building By-law convention in that city on that date.

Stephen Wilson was present and submitted a sample of water taken from tap after water was shut off Monday of last week, for the purpose of repairing outlet. The water is always riley for a few hours after repairing outlet, which cannot be avoided, the Mayor explained. But the Council will further and ascertain if the water at the Windsor is worse than any other services on the line. The Mayor explained that all cities are meeting with the same trouble. The town cannot at present afford the great expense of putting in a perfect filtration bed, but the water, as presented to the Provincial Laboratory at Edmonton, is reported absolutely pure.

COMMISSIONERS' REPORT.

The Commissioners brought in the following report:

Pursuant to your instructions, we inspected the cement crossing on 1st Ave. W. and 1st St. S. with Engineer Daws and decided to lower about six inches at the west side. The engineer was instructed to have this done.

The veteran extension to serve the new school in the south end of the Town has been laid; also one block in Parkville. The extension on Itasca Ave. is being laid now.

The debentures sold to Goldman and Company have been executed and forwarded to Toronto through the Merchants Bank. They agreed to accept a sixty day draft for the amount of their tender plus accrued interest, delivery against payment.

On the advice of our solicitors and bankers, this offer was accepted, and we expect the deal will be completed on those terms.

We engaged M. Reidy as janitor of the municipal offices.

The sidewalk has been laid up the Michener Hill. The roadway there requires graveling. We thought it would do to have this until spring, but the recent rains have left the road in such bad shape that it appears necessary to have this done at once. We recommended that we be authorized to have this work done this fall, if possible.

As the water lowered in the inner intake basin it was necessary to cut a hole in the side of the filter basin permitting direct access from the river. It was necessary to take immediate steps to improve the supply. We had Mr. Owens, Provincial Sanitary Engineer, down from Edmonton to consult with the engineers on the matter and we received their report on the question. We instructed our engineers to proceed immediately to prepare plans for a new intake and ask your authorization of this action.

We have not been at all satisfied with the progress made on the recent walks by the contractor. We have repeatedly informed him and also Seymour and Dave that the walks on Gaetz Ave. S. and the crossings on Louisa Street must be completed this fall. The contractor laid walks on streets after being told not to until these other walks were completed. We instructed our engineers to notify him some time ago that we would exact penalty should he not have the above mentioned walks completed this fall.

The cattle weighing case, Cameron vs. Gaetz and Town of Red Deer, was tried at Calgary last week. Copy of judgment is submitted herewith. We recommend that we be authorized to negotiate for the sale or lease of these stockyard scales, and that in the meantime the Town assume no further responsibility for weighing on them.

While in Red Deer, the Provincial Sanitary Engineer, R. B. Owens, examined the lay-out of the Town with Mr. Daws with a view to planning a complete sewer system with disposal works that would serve for many years to come. A general outline of the scheme is given in the engineer's report, which is submitted herewith. It will take some months to prepare the data for such a report which will not be completed until next spring. We believe that it is in the best interests of the Town to have such a

comprehensive report now even if the cost is considerable to procure it. The construction work from year to year will only be made as required, yet each year's work will form a unit of the ultimate complete system. Mr. Owens informs us that it will not be necessary to construct the disposal works for some years if his plan is adopted for the system.

In view of this important work and the great increase in the engineering work of the town, it would be well for you to consider at this time the question of engaging an engineer who will give his entire time to the service of the town. His duties could commence on Jan. 1st, and he could start right in to get the data required for the above mentioned report. An experienced engineer should be obtained for about \$2500.00 per year. As we paid in 1911 \$2,942.32 for engineering services and this year will likely pay about the same, the Town will actually save money by engaging a permanent man. We could then get some plans prepared at little cost which we are badly in need of.

We submitted statements of receipts and disbursements for September.

We submit list of accounts for your authorization to pay. Regarding the accounts in connection with the exhibition buildings, which were laid over, we beg to report that we interviewed Mr. Lord about them and he advised us that the material had been supplied and the work performed. We therefore recommended the payment of the accounts, and that the account to charge them to be left over until the end of the year.

We asked Mr. Wilson to furnish particulars of the account.

We notified Mr. Trimble that should his septic tank be used again the Town would hold him responsible for damages to the street. A reply was received from his Solicitor, which we asked Seymour & Daws to report on. The correspondence is submitted herewith.

As the Police reported several accidents recently, and also that they had been unable to get a reply from central telephone office during the night, we interviewed the manager of the company and the agreed to have the faults corrected.

We submit recommendations from Chief of Police Bell. We ask that he be authorized to order the necessary clothing equipment. The cement can be used for female prisoners for the time being, and the Chief is getting samples for the books by the question of appointing a Sergeant and raising salaries be left until next year when salaries are discussed.

We regret the bad condition Gaetz Ave. South has been in due to the fact that we could not do anything to fix this road without interfering with the work of the cement contractor, and we did not wish to give him any excuse whatever for delaying his work on this street. We will have the road put in the best condition we can before winter. It will be impossible though to bring it up to grade before then.

All of which is respectfully submitted.

A. T. STEPHENSON,
R. B. WELLIVER,
Commissioners.

Chief Bell recommended caps for the force, a cell for female prisoners, proper hooks for the police business, and that a Sergeant be appointed for the force.

On motion, all correspondence regarding B. Trimble's property was referred to the Town Solicitor.

The Commissioners' report was adopted. Councillors Galbraith and Malcolm objected, as they favored referring clause 8, re. weigh scales, back to the Commissioners to secure further information.

ACCOUNTS.

The following accounts were passed:

The Merchants Bank, \$1,159.63; John Cook, \$9.00; Davison & West, \$1,672.21; A. T. Ross, \$3.25; C. O. Kuykendall, \$11.08; Smith & Gaetz, \$21.44; W. G. E. Co., \$4.75; W. G. E. Co., \$707.30; Harvester Co., \$6.19; Glenora Co., \$2.60; A. W. Pead, \$5.15; H. Manning, \$6.00; G. B. Parker, \$4.00; Forest City Paving Co., \$588.80; Day, Hivare Co., \$60.00; The Merchants Bank, \$1,295.04; Secretary Board of Trade, \$500.00; J. Lally, \$2.75; Evan Roberts, \$307.73; A. W. G. Allen, hospital, \$2,000.00; A. G. Taylor, \$36.00; Baird & McKenzie, \$3,600.00; Jas. Cruickshank, \$5.50; Greene & Payne, \$4.85; W. G. E. Co., \$19.12; W. G. E. Co., \$1,031.25; Cushing Bros., \$37.30; C. P. Iy, Co., \$5.55; Canadian Municipal Journal, \$5.00; W. Springthill, \$7.75; Red Deer Star Laundry, \$2.10; The Merchants Bank, \$2,238.08; A. M. Lyman, \$2.75; Wage Sheet for September, \$3,744.35; The Merchants Bank, \$1,644.08; T. Bell, \$4.75; Great West Lumber Co., \$97.37.

A communication was read from Holman & Guthrie, stating they had, according to instructions, inspected the Western General Electric Co.'s building, and reported there was no immediate danger, but that the building should be inspected herewith and if found settling to have building condemned.

W. A. Moore was present and addressed the Council. He asked for the privilege of making certain repairs to the exchange building to make it safe, guaranteeing to have the building insured, promising to complete a year. It was practically impossible to change the wires in the winter time and any changes would have to be made immediately.

Councillors Galbraith and Carscadden moved that in view of the unsafe conditions of the telephone building, the arrangements be made by W. A. Moore to the Council be allowed, subject to the supervision of the Building Inspector and to the pleasure of the Council. Carried.

Councillor Botterill drew attention to the fact that it had been stated the Hospital Board would not install an X-ray apparatus until every other expense was settled for in the addition to the Hospital. He pointed out this apparatus should be installed, as provision had been made for same.

The Mayor said he thought provision was made for the X-ray in the grant.

Councillor Botterill said the amount first asked for the Hospital addition was \$15,000. Then the Council, in consideration of installation of the X-ray and a padded table, were granted \$15,000 for the Hospital addition. He thought an X-ray apparatus should be installed as soon as possible.

This seemed to be the view taken by the Council.

SEASONING TIMBER

Artificial Method by Use of Electrically Highly Successful

A novel electrical method of treating timber is said to have given striking results in France and to have changed the greenest wood into perfectly seasoned material. A water-tight tank of suitable size is required.

The timber is piled on a large lead plate at the bottom of the tank is full, when a second lead plate is placed on top of the pile and connected to the negative pole of a dynamo, the bottom connected to the positive pole. The space around the timber is then filled with a solution containing 5 per cent. of resin, 10 per cent. of borax and a trace of carbonate of soda.

On turning on the current it passes from plate to plate, through the wood, driving out the sap, and the resin and borax takes its place in the cells and interstices. The process being completed, the timber is removed and dried, when it is ready for use.

BETTER LEFT UNSAID

Scene: A wedding breakfast. Mr. Muddlehead (who has been asked to propose the health of the bride) thinks he sees an opportunity of distinguishing himself in his toast of a would-be wit.

In conclusion, ladies and gentlemen, allow me to express the fervent hope that the charming sisters of the bride—the Misses Green—may be evergreen.

Great laughter and applause, and Mr. Muddlehead sits down, a wiser, though not a happier man.

MEMORIES OF THE PAST

The sergeant was drilling a dozen recruits, and after a few days he found that he had made any impression on them whatever. He decided to tell them a tale:

When was a boy my mother bought me a dozen wooden soldiers, which I drilled and tried to instruct, but without any result, of course. Then I lost 'em one by one, and now I have found you again, you wooden duffers."

Listen!

Have you heard about Peps? Peps is a new scientific preparation put up into tablet or pastille form, which provides an entirely new and effective treatment for coughs, colds and lung and throat troubles.

There is no connection between the lungs and the stomach.

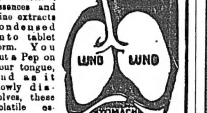

Suppose something were wrong with your stomach; say indigestion, or ulceration—would you think of taking some medicine which went not to your stomach, but to your lungs? Certainly not!

Why then, when your lungs and chest are affected, should you dose your stomach—an absolutely separate organ—with medicine? It is far better to treat the ailing organ direct!

Peps provides a direct treatment for cough, cold, bronchitis, and all lung, chest and throat troubles. Peps consists of a highly medicinal essence and pine extracts condensed into tablet form. You put a Peps on your tongue, and as it slowly dissolves, these volatile essences descend into your stomach.

You BREATHE the remedy to your ailing lungs direct, instead of carrying it to your stomach, which is not ailing. (See diagram.) The healing fumes, thus breathed in, have the delicate, flame-like membranes of your breathing tubes and pass right on to the tiny passages of the lungs—a course no liquid or solid medicine could possibly take.

For Peps goes to the lungs direct and will cure you. All druggists and stores sell boxes. Write for free sample to Peps Co., Toronto, or 62 Prince St., Winnipeg. Send only 10c stamp for postage and enclosure this advertisement.

THE TWO BRANCHES OF THE RESPIRATORY SYSTEM. DIRECT TO LUNGS. DIRECT TO STOMACH.

THE TROUBLE WITH YOUR LUNGS. THE TROUBLE WITH YOUR STOMACH.

THE TROUBLE WITH YOUR LUNGS. THE TROUBLE WITH YOUR STOMACH.

THE TROUBLE WITH YOUR LUNGS. THE TROUBLE WITH YOUR STOMACH.

THE TROUBLE WITH YOUR LUNGS. THE TROUBLE WITH YOUR STOMACH.

MEN-YOU NEED NERVE

EARLY INDISCRETIONS AND EXCESSES HAVE UNDERMINED YOUR SYSTEM

The nerves control all actions of the body so that anything that debilitates them will weaken all organs of the system. Early indiscretions and excesses have trained thousands of premature young men. Unnatural drains on vitality and the lowering of the body to a proper condition of health. They remain weak, mentally, physically and sexually. How you feel after just nervous and weak, disposition and gloomy, weeks before the eyes with dark circles under them, weak back, business irritative, painfulness of the head, back, debilitating dreams, excitement in some similes on the face, eyes, nervous, hollow cheeks, nervous, nervous, poor memory, listless, distrustful, lack energy and strength, tired, nervous, nervous, nervous, changeable moods, premature decay, bone pain, thin, blue, etc.

This is the condition your New Method Treatment is GUARANTEED TO CURE. We have treated thousands of men for almost a lifetime and do not have to experiment. Consult us FREE OF CHARGE.

and we will tell you whether you are curable or not. We guarantee curable cases of NERVOUS DEBILITY, VARICOSE VEINS, BLOOD AND SKIN DISEASES, GLEET, BLANDER, URINARY AND KIDNEY COMPLAINTS. Free Consultation on Diseases of Men. If unable to call.

QUESTION LIST FOR HOME TREATMENT

Drs. KENNEDY & KENNEDY

LOCAL AND GENERAL

Thanksgiving Day, next Monday, Oct. 28th.

S. O. E. meet tonight. White Rose meeting Oct. 30th.

Pen-angel and hole-proof hockey at Brown & Fulton's.

J. R. Cowell, of Armstrong, B.C., is visiting in Red Deer.

See Scott's south pole expedition at the Lyric Thursday evening.

Mrs. A. W. Allen arrived home Tuesday night from the Old Land.

Everybody going there? Going everywhere? Hallowe'en at Oddfellows' Hall.

One thousand baskets grapes received, to sell at 40c basket—T. A. Fulton.

A fall hat or cap goes with every overcoat or suit purchased at Brown & Fulton's on Saturday.

J. T. Armstrong, of Vancouver, who has been in town some time, leaves for the coast today.

Messrs. Flaxton, Campbell, Mann, Parker, and Land and Grimsco are away south of Gladby goose shooting.

Harvest Thanksgiving at St. Luke's Church on Sunday next, Oct. 27. Rev. Martin Holmdorf, of Castor, will preach.

Mrs. Neil Roney left for her home in Carolina, Ont., Tuesday, last week for a few months' visit among friends and relatives.

The Dorcas Branch of St. Luke's W. A. will meet in the vestry of the church tomorrow (Thursday) afternoon at 2:30 o'clock.

The report that Bob Taylor was due to arrive in Red Deer, was well as expected.

It's time to order your private greeting cards for Xmas. See T. A. Fulton and exclusive designs Gaetz-Cornett Co. are showing.

Special Thanksgiving music will be provided by the choir of the Leonard Gaetz Memorial Methodist Church next Sunday at both services.

B. C. Trimble has sold out his interest in the News Block to J. A. Carswell for \$10,000. Mr. Carswell is now sole owner of the block.

The four men who were arrested by Chief Bell, in connection with the Arnold liquor store, were given three days hard labor and then one hour to leave town. They left.

Harry Ellis and Joe Edgington, juniors, are following in father's footsteps. They were out south of town on Saturday and succeeded in killing and bringing home two fine geese.

Mrs. Bond, wife of Rev. Mr. Bond, and mother of Mrs. Carswell and Mrs. Horn, underwent a serious operation in the hospital on Monday. She was holding her own at last report.

Miss Nash, daughter of A. B. Nash, is seriously ill with typhoid fever in the Medicine Hat hospital. Miss Nash is a nurse on the staff there, and has been nursing a number of patients with the fever for some time.

J. R. Davidson, publicity agent of the Board of Trade, was presented with a beautiful set of silver at the close of the banquet last Wednesday evening on his retirement from the position held by him for the past two years.

Dr. Sanders, late of Mearath, Alta., is coming in with McGrath, Col. and Gray. Dr. Sanders is a graduate of McGill's and classmate of Dr. Collison, and has had an adroit training and carries Edinburg and London degrees.

Miss A. G. Smith, the distinguished Toronto demonstrator, will be at the store of N. Murphy & Co., Tuesday next, October 26th, and remaining days of the week. She will be glad to greet you with a nice cup of coffee or cocoa.

The Ladies' Aid of the Methodist Church will serve a hot Thanksgiving supper in the basement of the church on Tuesday evening, Oct. 26th. A splendid programme is being arranged and will be given in the church after the supper. Tickets 50 cents.

Mrs. Vale, of Great Slave Lake, is visiting Mrs. E. M. Will on. Mrs. Vale will be remembered as Miss Nash, for some time a nurse on the hospital staff in Red Deer. Mrs. Vale gave an interesting address to the scholars of the Methodist School of their work in the far north.

Capt. Cottingham is back from his trip south of Brooks, Alta. He had a good summer back on view in P. Bun's store on Saturday last. He reports the deer very shy, and hard to get near. He also thinks that the way civilization is spreading that the future holds out little hope of much sport in this line.

Sheep-lined coats, \$5.00.—Brown & Fulton.

The Merchants Bank have taken out a permit for a \$35,000 building.

John Gaetz-Cornett Co's. Lending Library. Read the new books for the week.

One thousand baskets grapes received, to sell at 40c basket—T. A. Fulton.

A good time is promised at the Hallowe'en Social. Everybody come. Only 50c.

Come and help the Alexandra Club at their social, Oct. 31. They are helping the hospital.

A large shipment of Xmas goods and slugs arrived at John McVicar's bookstore. Agent for Xmas Globes, Chimes, and the leading Canadian wireless and dailies.

Do not order private greeting cards from out of town canvassers until you have seen our line. If they can't out samples and prices given in the order—Gaetz-Cornett Co.

The Junior Auxiliary of St. Luke's Church will have a social evening on Thursday, October 26th, from 7 to 10, at the home of Mrs. T. M. Wright. An order to be drawn for. Everybody welcome. Admission 10c.

J. H. Ivey has, we understand, accepted a position with the Dominion Coal Co. at the coast, with head-shale holes and sewer pipe Co. quarters at Nanaimo. He will first visit the east in the interests of the Great West Co. to buy machinery.

An illustrated lecture will be given in the auditorium of the Methodist Church in the interests of the Young Men's Club. The lecture will include moving picture views of Canada from Winnipeg west and the western coast of California. Silver collection. Oct. 24th.

BIRTH.

In Red Deer, on Thursday, Oct. 17th, 1912, to Mr. and Mrs. H. H. Humber, a son.

POPULAR RIDGE.

Quite a crowd turned out Sunday afternoon but the preacher failed to put on an appropriate sermon.

A son was born to Mr. and Mrs. O'Bryen, Oct. 16th, 1912.

Joe Peets is building in North Red Deer.

Ed. Bowen has purchased a separator and expects to do threshing this fall.

TEACHERS' CONVENTION.

In order to provide an entertainment of an interesting and educational nature for the visiting teachers, Mr. McVicar has arranged with the convention committee to put on Capt. Scott's North Polar Expedition as a photograph on Thursday evening. The convention committee hope that the public will patronize this entertainment as it is being brought at great expense to the manager.

SUPREME COURT.

The Supreme Court fall sittings opened yesterday in the old ladies' Hall with Judge Harvey presiding. There were about twenty cases in the docket, but some will be laid over.

Tex vs. Rydman, for blackmail. Prisoner acquitted.

Tex vs. Cummings, for assault and battery, was heard with closed doors, and is now proceeding.

BELL-BLACK.

A very interesting home wedding took place on Wednesday, October 10th, at Hallowe'en, near Delburne, the home of Mr. and Mrs. Alex Black, when their daughter, Miss Elizabeth Black, was united in marriage to Mr. Robert Inglis Bell. The ceremony was performed by the Rev. W. G. Brown of Red Deer. The bridegroom was accompanied by Mrs. Annie Black and Mr. Thomas Bell, the bride's father and brother. The bride wore a splendid gown and a beautiful veil. Only the nearest relatives were present and someone remarked this was a real case of wedding bells. A splendid dinner was provided by Mrs. Black, the mother of the bride. The young couple are favorably known in Red Deer, where they will live after their return from a short wedding trip.

VERITY PARK PEOPLE.

Mr. Geoffrey H. Samuels, son of Sir Harry Samuel, M.P., of London, England, will, with his wife and child, arrive in Red Deer the second week in November. He is associated with the new Massey-Mattocks greenhouses industries on Verity Park, whose management and administration will be under the Red Deer Holdings, Ltd., of which Mr. E. A. Cunningham is Managing Director and Mr. B. C. Holson Secretary-Treasurer. The Holdings Co. will also administer the affairs of the iron industry and look after the interests of the British-Canadian Realty, Ltd., and the Red Deer Investment Corporation. The Holdings Co. has taken temporary quarters in the Massey's office. Mr. Cunningham is withdrawing from the partnership of the Lethbridge Board of Trade, and will take charge of the Red Deer office about November 1st. Mr. Kealey, of the Lethbridge Board of Trade, has about a month later, as soon as satisfactory house accommodation can be secured.

For exceptional low values in sheep-lined and fur coats see Brown & Fulton.

Madame Ruth Hope, Violinist, lessons given at pupil's residence, 123 First St. N.

Don't forget the Hallowe'en Social, October 31st, given by the Alexandra Club, at the Oddfellows' Hall.

Verity Park Celebration

(Continued from page 1)

future, and expressed his confidence in the industries now being instituted. W. H. Nelson was for many years general storekeeper, Canadian Pacific Railway, and started his business career some 16 years ago, with the Sherwin-Williams Paint Co. in Montreal, on the opening of the Canadian Pacific Railway. He then represented the interests of that large corporation in several American and European centres. His wife, we learn, is a daughter of that ardent Imperialist Henry Butt, C. of Western Super Mar, England.

Mr. H. H. Gaetz, wholesale dry-goods merchant, former Mayor of Red Deer, and late President of the Alberta Union of Municipalities, was then introduced, and recalled associations in the same spot of 20 years ago, and complimented Red Deer for attracting the machinery company plant and on the great development of the Alberta Central Railway, which he felt would astonish its people.

Perhaps the most important speech of the day was that of the history of Red Deer was that of

J. GANT MACGREGOR,

chief engineer of the Alberta Central Railway, who expressed his keen pleasure at the great development in the Verity Park district, and at the many prominent out of town people present to join Red Deer's leading citizens in auspiciously inaugurating the industries brought here by Mr. Bull and his associates. "In fact," said Mr. MacGregor, "it is industries as the works are started, and here today that our railway's must look for business, and I am more than pleased to see this industry planted within 1000 feet of the main line and head yards of the Alberta Central Railway." The News reporter asked Mr. Bull as to any changes he thought likely to be made in Red Deer since his visit in March, 1912, and, in reply, he said, "In March your brick yards and lumber factories were in a very poor state of affairs. Now they are both in vigorous operation with doubled capacity. The removal here from Regina of the Akerman wheelbarrow business is very important considering the experience and success of this firm in both Ontario and the west. Then," said Mr. Bull, "perhaps most important as a future omen is the opening in Red Deer of the head offices of the Brazeau coal fields company, added to this the announcement by the Bank of Montreal that they would open at Red Deer, and you see the workmen busy making ready their banking premises—then on January third the Alberta Ladies' College will open, three times the size contemplated a year and a half ago, and still several times too small. Both the C.N.R. and the C.P.R. are rushing their new Red Deer railway lines. The Laurentia Milk Company, just opening when I was here last summer, is now a substantial industry; a law firm is also here; and about one hundred new and, I am pleased to say, happy homes, with lots of babies."

"Thank the citizens of Red Deer," said Mr. Bull to The News in leaving with his friends, "for their kindness and courtesy to us. Say to them that with John McLennan and family from Edmonton, Messrs. Cunningham and Kelso and other families, from Lethbridge, Massey-Mattocks and his little army of nursery and greenhouse experts come from Lancashire, England, and with Red Deer Nurseries Branches at Vancouver, Red Deer has the North, South, East and West all paying tribute to her, and see how you more sanguine than ever and delighted with the charm and advantages of your location and people."

Among the many present at Verity Park were Miss Vera Leas, Miss Josephine Devins, Rev. Robert Pearson and Dr. Stewart McKenzie.

During their ten days here, Mr. Bull's party spent a little time motoring through Red Deer's beautiful rural district, and enjoyed some good shooting, the bag consisting of chicken and rabbits, in fact Mr. Kelso's ducks, partridges, prairie quail and some quail, and some quail or double—Dr. HICKS, Blackfalds, Oct. 23.

WANTED.

Several cardinals each of green hats, bay and all. State price on cards at Red Deer—JERSEY DAIRY, Drawer 664, Medicine Hat, Alta. Oct. 23.

FOR SALE.

Team of black ponies, light demerit and harness. Ponies are fast on road, gentle to handle, and both used to saddle. Democrat new spring. Price, \$325 the out. Will also take offers for white saddle ponies, and will drive single or double—Dr. HICKS, Blackfalds, Oct. 23.

LOST.

Between Steam Laundry and Parker's Drug Store, on Monday, a small silver chain purse, containing \$5.00 and some silver. Return to Miss E. A. Miller or The News Office and receive reward. Oct. 23.

FOR SALE.

The West Hotel household furniture. A snap. Apply MRS. E. BOWEN, West Hotel, Red Deer, Oct. 23rd.

POSITION WANTED.

A gentleman desires a position as bookkeeper. Competent, experienced. The best of references. Apply to Mrs. Hill, general delivery, post office, or to The News Office, Red Deer, Oct. 23.

MEN WANTED.

Steam shovel ramp, 2 miles north of town. BOOMER HUGHES & CO. Oct. 23, 1912.

The Late John G. Fallow

The many friends of John Gavin Fallow were shocked to hear of his sudden death last week. Mr. Fallow came in from the range west of Olds, Thursday, and appeared to be in his usual health. He had just killed his little boys good night on retiring, when he felt a severe pain in his chest, which grew worse almost immediately, and he choked up and was unable to speak. Doctor Grant was sent for, but by the time he arrived life was extinct. Deceased came west from New Richmond, Quebec, several years ago, and took a position with the Great West Lumber Co. and has had charge of the Company's work in the bush, and came in to meet Captain Fallow. There was a large attendance of buyers and stockmen, and the accommodation was excellent. The herd bull went at a bargain to Mr. Henry Jamieson who, with his sons, bought eight females also, and are starting a purebred Holstein herd at Burnt Lake, Mr. Bjorklund also got some good animals. The top price was \$500.

Michener's Cattle Sale

The Michener Bros. Holstein dispersion sale was held at the cattle barn of the Exhibition grounds, on Wednesday afternoon. Mr. Richardson, a widely known Ontario breeder, who was present, considered it the best sale held in the West. Better prices might have been obtained with some of the young bulls, had they sold in the spring, and some cows were out of condition owing to heavy milking, which affected the price a little, but anything of good breeding and fresh cattle brought high figures. The gross receipts would run about \$15,500. Col. Weddell, of Brantford, Ont., was Auctioneer, Mr. A. Rogers assisting. Mr. L. C. Porter was clerk.

Stephens FLOOR PAINT

MAKES HOUSE-KEEPING EASY

It's the rough, splintery floor that is hard to keep clean. Make it easy by applying a coating of **Stephens Floor Paint**. Sinks into the floor. Makes a smooth, hard, protected surface, that is easily kept clean. Brightens the house, lightens house work, and saves the floor at small cost to you. Drop in and see our line of colors, we will gladly show them.

The Day Hardware Co.

WE STAND FOR PROGRESS

a woman and her husband

A thrifty Nelson, B.C., woman bought four lots in Red Deer West and then sent up her good man to look over the purchase.

He came, he saw, and he was delighted with the lots and the town.

A Look Means a Lot in Red Deer West—only in this case the Look came second instead of first. It's all the same, however—they all like Red Deer West.

See the property. Ask people who live there.

The Smith Land Co.

THE BEST SELLING NOVEL IN THE WORLD

Harold Bell Wright's

Their Yesterdays

The best work, by far, yet done by the author of "The Printer of Udsels," "The Shepherd of The Hills," "The Calling of Dan Matthews," "The Winning of Barbara Worth."

Tender with sentiment, pathos, realism. Honors the home, supremely glorifies the wife and mother. Delightfully wholesome. Illustrated in colors by F. Graham Coates. \$1.50 Net; By Mail, \$1.65.
